Profile

As a visionary and results-driven CEO, I have successfully raised over 2 MEUR in capital, demonstrating my exceptional ability to drive business development and capitalize on digital platforms. With a master's degree in Society, Science, and Technology, my expertise extends beyond traditional business practices, encompassing a deep understanding of the social sciences and their significant impact on technological advancements. Through my analytical precision and unwavering attention to detail, I consistently make substantial contributions to the advancement of technology and science.

Work experience
